**INSTRUCTIONS**

Read the following instructions carefully before answering the questions:

1. This is a digital portfolio highlighting work done throughout the year.
2. For further instructions refer back to the reflection briefs provided on uLink.

**Your portfolio instructions**

As assessors of your final portfolio work, we need to be able to ascertain the breadth and the development of your learning as a scholar.

You are to select three of your best themes from your four assignments that you have done during the year and you have to provide a critical appraisal of the course in the form of a narrative. You might want to structure the appraisal to cover the positives, negatives as well as areas for improvement in each of the themes. You are also offered an opportunity to improve any of your work before submission.

As part of your final submission you must structure your selected themes into a well-organised folder containing all the resources pertaining to each theme. Please include a word document in making explicit your reasoning for your theme selection as part of your narrative. Please make sure that your hyperlinks are active. You must submit your portfolio in electronic form on a CD on the date of examination.

**TOTAL: 100**
