INTERNAL MODERATOR: Prof C Looock
EXTERNAL MODERATOR: Prof M Lumadi (Unisa)

(This paper consists of 1 page)

You are a member of a project management team that has been asked to design a school project of your choice. You need to do the following

- Agree on a project design team
- Agree on a project design team facilitator who will facilitate the work of the project design team
- Design a detailed WBS (Work Breakdown Structure) for the project that includes the eight dimensions of project design and management covered in class.

Your design should be comprehensive but succinct. Use the rubric in your guide to ensure you cover the ground. I suggest that your design should not be longer than about 10 pages. All group members should submit their project design on the date of the exam to the exam invigilator at the exam venue at the scheduled exam time.
