QUESTION 1

SCENARIO:

You are requested to assist with a community women's shelter for women who have a history of severe abuse by their husbands. They fear for their lives and are in hiding from their husbands. They are between the ages of 30 and 50 years old. Their extended families and churches do not support them because they are of the opinion that these women brought the abuse on themselves. A group of volunteers from a non-governmental organisation runs this shelter with the women.
