**Section A: Selection of THREE of your best activities (assignments)**

Current Issues in ICT Innovation in Education are envisaged to transform STEM education by embracing practical skills embedded within theoretical frameworks. For your final portfolio task, you are required to create a digital artefact that reflects the complexity of using ICT innovations in the classroom context.

In order to do this, you are to select **THREE** of your best activities (assignments) from:

- Assignment 2\_ Theoretical Frameworks
- Assignment 3\_ Digital Badge Strategy
- Assignment 4\_ The 21st Century skills framework, STEM and ICTs
- Assignment 5\_ Comparison of Instructional Design Models

**Section B: How to submit your portfolio**

As part of your final submission you must structure your selected activities into a *well-organised folder* containing all the resources pertaining to each activity. The contents of the folder should include the *overview* of the module for whole year, *three improved activities/assignments* and the *reflection* on the selected activities/assignments.

Take the following into consideration before you submit your portfolio:

1. Create a folder with your student number as a folder's name.
2. Copy your three selected *activities/assignments* into this folder.
3. Copy or add the *overview* of the module for whole year and *reflection* on the selected activities/assignment files into this folder.
4. Compress the folder into a zipped folder and **uploading it in the space provided in uLink** on the date of the examination.

**TOTAL: 50**
